BRIDALVEIL

"The finest pastel seen this season"

—James Terry, Mississippi

FIGURINE

"A very illusive and desirable color as it grew for me."

—Wilmer Flory, Indiana

LE MANS

"Very hot today and at five o'clock it looked as fresh as it did this morning. I like this one."

—Hazel Lacey, Kansas

LEVITY

"Definitely one of the top half dozen light yellows after its third season here."

—D. R. McKeithan, Oklahoma

BRIDALVEIL (Merriweather-Rainwater)

Seedling SB4-56 (Show Girl x Mrs. B. F. Bonner). A 6 to 7 inch midseason pastel of Persian Lilac with prominent apple green throat; overlapping ruffled 2½" petals and 1¼" sepals of a slightly lighter tone. There is no eyezone in this widespread and recurving flower. Scapes 32" to 34". Bridalveil is a night bloomer, opening here at 7 P.M., and lasting better the next day if protected. If you like Show Girl, you are sure to love her daughter, which requires the same growing conditions. Evergreen, a rebloomer, and has proven adaptable in Oklahoma and Indiana as well as the South.

Junior Citation, 1956

Fall Del. \$15

FIGURINE (Munson-Rainwater)

Seedling SMP 16-54 (Show Girl x Mission Bells x Prima Donna). Fully Sunproof, Figurine is a pastel cream of pink with a small apple green throat and no eyezone. The 5" flowers have excellent texture and a velvet finish on the 2" petals which overlap the wide sepals. Midseason, evergreen, 34" and a vigorous grower. In the South has had up to four separate blooming seasons. Tested and proven in the North as well.

\$10.00

LE MANS (Rainwater)

How often have you asked for an evergreen border plant? Here it is; a 16 to 20 inch early midseason and reblooming light but intense yellow. Named for the famous French 24 hour Sports Car Race, Le Mans remains in perfect condition until the following midnight. One of the nicest things about this border plant is its well above average narrow leafed foliage. The flowers are medium in size and of pleasing recurved and well opened form. Vigorous increaser.

\$10.00

LEVITY (Wheeler-Rainwater)

Happy am I to be able to introduce at this time a flower that has drawn rave notices from Kansas to Texas to New England. A 28" to 32" light yellow, evergreen and a rebloomer, Levity opens at dark and simply laughs at the sun and rain until midnight of the following day. When established, Levity is the flattest form of any hem that we know, with a throat depth of less than an inch. The wide overlapping petals and pinched sepals give to the 5" flowers the overall effect of a very flat Dutch Amaryllis. This is a new form hybridized by the king of new hem forms.

Junior Citation, 1954

\$25.00

Garden Greetings:

It will be my pleasure to have you visit the garden at any time. You will find several hundred of the finest daylilies including many of the latest introductions and a number of guest plants from the leading hybridizers.

This year in addition to my own seedling, LE MANS, I am introducing LEVITY, (Wheeler-Rainwater), FIGURINE, (Munson-Rainwater) and BRIDALVEIL, (Merriweather-Rainwater). These are plants which I have purchased in their entirety from the hybridizers and they are only available from me. I am pleased to be able to list these introductions, and hope they will meet with your approval. Each has been tested in several gardens in other sections.

In addition to the above introductions, a number of other varieties are available at current hybridizers prices, ranging from 50¢ to \$50.00. Ask about our special beginners collections.

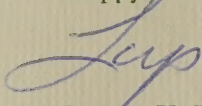

If you are not getting enough pleasure from your hems, perhaps our landscaping advice is the answer. We endeavor to design gardens that can and will take care of themselves.

Terms: Cash, check or money order to accompany order.

Guarantee: Each plant will be in good, healthy condition and of good size for the variety when it leaves our hands.

I am looking forward to seeing you this season, and please be assured that a hearty welcome awaits you at my new location.

Happy heming,

Lupton V. Rainwater

P. S.—You will get more pleasure out of your daylillies if you join the local and national groups; for further information please contact:
